Notes ?

Students using the app will write their own assembly language code under 'Edit Code'. So to save a little time, I've attached an example of what can be created. Unzip and open in the app.

Thanks for taking the time to review my app!

## Version Release

This app version can be automatically released right after it has been approved by App Review. You can also manually release it at a later date on the App Store Connect website or in [App Store Connect for iOS](#).

☐ Manually release this version

- ☒ Automatically release this version
- ☐ Automatically release this version after App Review, no earlier than

Your local date and time.

January 22, 2021 5:00 PM

Jan 22, 2021 5:00 PM (GMT)

## Advertising Identifier

Does this app use the Advertising Identifier (IDFA)?

- ☐ Yes, my app uses an IDFA
- ☒ No, it doesn't

The [Advertising Identifier \(IDFA\)](#) is a unique ID for each iOS device and is the only way to offer targeted ads. Users can choose to limit ad targeting on their iOS device.

Ensure that you select the correct answer for Advertising Identifier (IDFA) usage. If your app does contain the IDFA and you select No, the binary will be permanently rejected and you will have to submit a different binary.
